

# You are in **control**

Use your **top ideas** for controlling your **carbon footprint**.

## – making a good presentation

Now create a **presentation** to explain what you will do and why other people should get involved.

**A presentation is...** a talk where people share information or ideas with an audience.

## Top tips for your slides or mini-posters

■ Use 5 or 6 bullet points on each slide or poster.

■ Use pictures or photos you have taken to add interest.

■ Use just a few words and phrases on each slide or poster.

■ Stick to one or two colours or fonts.

## When you're speaking...

- Go slowly!
- Look at the audience and ask them questions
- Give people time to read your slides or posters.
