

# You are in **control**

## – making a good podcast

Use your **top ideas** for controlling your **carbon footprint**.

Now create a **podcast** to explain what you will do and why other people should get involved.

**A podcast is...** like a short radio show that people listen to on the Internet.

### Top tips for your podcast

- Decide who the listeners might be
- Brainstorm ideas that you're going to be talking about
- Be clear and choose the ideas you want to tell the listeners about.

### When you're speaking...

- Be clear and try not to mumble
- Record the podcast somewhere calm and quiet
- Think... "***Will this grab someone's interest?***"
